**VERY OLD INDIAN.**  
(By Associated Press.)  
BAKERSFIELD, Calif., Jan. 25.—Mary Techuyas, an Indian woman reputed to be 150 years old, who died Sunday, was buried Monday by the few remaining members of her tribe. The aged squaw was the oldest member of an almost extinct tribe known as the 'Tajons, who live in a canyon near here. The tribe is said to include fifteen Indians who are more than 100 years old.

tribute to the deceased woman. The body was laid to rest in the Odd Fellows' cemetery beside that of her husband, who many years ago preceded her to the great beyond. The immense throng that followed to her last earthly resting place and the many beautiful floral tributes attested the high esteem in which the deceased woman was held. "Nerer My God to Thee," "In the Sweet Bye and Bye" and "Oh, Think of the Home Over There" were touchingly rendered by the church choir. The pallbearers were A. D. Fitzhugh, George Camp, C. H. Taylor, A. J. Williams and M. D. Teter. The flowers girls were Misses Dezzie Lawson, Ora Lawson, Lula Payne, Madge Williams, Esther Cornwell and Mabel Williams.

WALSH TALKS  
TO MINE MEN  
ON FREEDOM

Tells the Convention That Labor Itself Can Free Itself by Complete Organization.

(BY ASSOCIATED PRESS)  
INDIANAPOLIS, Jan. 25.—Speaking before the convention of the United Mine Workers Monday, Frank P. Walsh, chairman of the commission on industrial relations and the head of the federal commission on industrial relations, now out of existence, declared that if labor is to be emancipated and receive industrial justice it must be done by labor itself. Only in complete organization can they find protection, he said.

Mr. Walsh viewed the work of the federal commission, paying particular attention to the conditions it found in Colorado. The story of Colorado was the story of "all exploited communities and unprotected workers." He asserted that the federal commission in its two years of research did not find a single case where there was a labor disturbance or loss of life in a strike that labor had a contract with the employer.

Mr. Walsh ridiculed the Rockefeller plan for dealing with the employees of the Colorado Fuel and Iron Company. He considered the strike in Colorado won by the workmen because John D. Rockefeller was "compelled to acknowledge the scientific facts underlying collective bargaining by proposing a plan dealing with the workers. The plan, however, was a bogus one, Mr. Walsh said.

## HARMONY

At Chicago Convention Fore-casted by Disposition of Republican Leaders Now.

(BY ASSOCIATED PRESS)  
CHICAGO, Jan. 25.—Republican leaders, member of the national committee sub-committee on convention arrangements met here Monday and discussed plans for the party convention which is set for June 7 in the Chicago coliseum.

Though empowered by the national committee to select a temporary chairman for the national gathering the committee members here declared that no such step would be taken at this meeting.

When the sub-committee went into executive session, Fred Upham, chairman of the Chicago convention committee, Julius Floto, architect, and C. R. Hawley, manager of the building, met with him. Informal conferences of committee members preceded the executive session and there appeared to be a general disposition to forecast that all reasonable concessions would be made to assure harmony in the ranks of the party, which was divided after the 1912 convention.

## DIVORCE PETITION

Of Mrs. Mohr is Introduced as Evidence against Her at Her Trial.

(BY ASSOCIATED PRESS)  
PROVIDENCE, R. I., Jan. 25.—Almost at the point of resting it case the prosecution Monday introduced as evidence against Mrs. Elizabeth P. Mohr, Cecil Brown and Henry Spelman, jointly on trial for the murder of the woman's husband, Dr. C. Franklin Mohr, the divorce petition which was filed by Mrs. Mohr on February 7, 1914. The case was to have come up for hearing on September 1 last, the day after Dr. Mohr was killed.

The petition as amended on July 6, 1914, charged extreme cruelty, referred to Dr. Mohr's associations with other women, and charged that he had used drugs excessively. Separate maintenance for the wife instead of absolute divorce was asked in the amended bill.

## MIRACLE

That a Woman Who Plunges from the Sixteenth Floor of Building Still Lives.

(BY ASSOCIATED PRESS)  
CHICAGO, Jan. 25.—Miss Minnie B. Werner, a stenographer employed by the Railway Age Gazette, plunged from the sixteenth floor of the Transportation building in Dearborn street Monday, but still lives. Her fall was broken by an auto truck loaded with paper boxes, but her skull was fractured and she was internally injured. Physicians said she probably would die. An eye witness told the police that he saw the young woman raise the window and climb onto the window ledge. The police said they believed that she jumped. She is 24 years old and has been employed by the publication for five years.

## Happy Old Age.

When old age carries with it hosts of trifles, good health and an abundance of this world's goods, it should be as happy as any period of our existence. That is old age as it should be, but too often it means poor digestion, torpid bowels, a sluggish liver and a general feeling of ill health, despondency and misery. This condition can be greatly alleviated, however, by taking one of Chamberlain's Tablets each day immediately after supper. That will strengthen the digestion, tone up the liver and regulate the bowels, then that feeling of despondency will give way to one of hope and good cheer. Obtainable everywhere.—Advertisement.

## Warm the house and make a home!

The uppermost thought of all mothers is to have a home that is cleanly, amply warmed, to cheer and comfort husband and little folks; also to make the home a cozy, genial center for the gatherings of good friends. All mothers now-a-days deserve to be freed forever from the back-breaking drudgery of "tending stoves," that heat only "in spots," and spout ash-dust and coal-gases. The only sure way to warm a house and make it a home is with an outfit of

AMERICAN & IDEAL  
RADIATORS & BOILERS

These IDEAL heating outfits are no longer considered "luxuries." The smallest cottage or largest building can be equipped at present attractive prices to suit anyone's pocket-book. These outfits heat the whole house with one fire and require no more care-taking than to run a stove for one room. Best of all, they last forever and repair bills are unknown.

## They pay for themselves in savings

They increase the value of your property to more than their cost. They are noiseless, absolutely safe (a child can run them), and can at any time be put in new or old houses with ease without disturbing anything or tearing out walls or partitions. They protect against fire risk and run independently of the water works supply, as same water is used over and over again for years.

The IDEAL Boiler may be put in cellar or side room and will burn any local fuel—wood, oil, gas, lignite, hard or soft coal, (even cheap grades of pea coal, slack, run of mine, screenings, etc.) Bankers and real estate men will back our statement that it is a paying and permanent investment and not an expense—these outfits are the greatest improvement you can make in a building, for their fuel and other savings repay their original cost many fold during the lifetime of the building.

Let us tell you all about it and give you special information so you can judge for yourself. Write today—now—for free booklet "Ideal Heating." You will not be asked to promise or obligate yourself in any way, but send for it at once.

TRUNK IS SEIZED  
AND MAN JAILED

Transfer Man is Forced to Tell Who Gave Him Check.

A negro who says his name is Z. Walker and his home Belleaire, O., is a prisoner in the county jail awaiting trial, or hearing, before a magistrate on a charge of violating the prohibition law by importing whiskey in a trunk.

Walker was arrested Sunday morning in North Fourth street shortly after the trunk had been seized in a hotel transfer wagon and its driver taken into custody. The driver was released upon his promise to disclose who gave him the check for the trunk, which was being hauled from the baggage room of the Baltimore and Ohio passenger station.

The trunk contained about 200 pints of whiskey. J. H. Tenney, deputy state commissioner of prohibition, was the officer who seized it and made the arrests. He swore out a warrant against Walker before Magistrate William E. Starcher and the latter will hear the case at 1 p. m. Tuesday.
